AGWA
ACCREDITED

The Australian Glass and Window Association is a NATA Accredited Inspection Agency and undertakes annual audits of compliance to provide members with the means to independently demonstrate product performance and compliance with relevant Australian Standards.

AGWA Accredited Companies Program effectively merges the two previous accreditation schemes of AWA and AGGA into one single, comprehensive, and robust program. The AGWA program provides an improved blueprint for the future to raise the profile of our industry, promote industry competence and expertise, and provide greater value for AGWA Members.

WHY ACCREDITATION MATTERS

AGWA Accredited Company Program provides a comprehensive framework to develop and demonstrate the skills, experience and integrity of your company's production systems. Formal recognition and promotion of the industry related expertise of your company will help you stand out in a competitive market.

Compliance

Provide Accredited Companies with the means to independently demonstrate product performance and compliance with the National Construction Code, Australian Standard 2047 Windows and external glazed doors in buildings, Australian Standard 1288 Glass in buildings and other relevant Australian Standards.

Skills and Training

Ensure Accredited Companies have the technical 'know-how' to achieve consistent and reliable performance and provide a continuing professional development program that allows Accredited Companies to maintain the currency of their skills and improve competency within their workforce.

Safety

Assist Accredited Companies in providing a safe and healthy workplace for all employees and recognise best practice WHS management and employee engagement in promoting safety and well-being in the workplace.
