

National Technical Alert

AS 1926.1: Public Comment

| | |
|-------------------------|---|
| Action Required: | Provide comments and feedback to AGWA regarding the latest version of AS 1926.1 which has been opened for public comment by Standards Australia, by COB 17th Nov 2023 |
| Issue affects: | <i>Pool Fence Installers, Glaziers, Hardware Suppliers, Builders, Consumers</i> |
| Summary: | Standards Australia, as a part of the revision of AS 1926.1 Safety barriers for swimming pools, has released AS 1926.1:2023 Swimming pool safety, Part 1: Safety barriers for swimming pools for public comment. Members are to provide opinions and feedback to AGWA, to be forwarded on to Standards Australia. |

RECOMMENDATION

It is recommended that members note and provide feedback to AGWA or direct to the public comment drafts as published by Standards Australia.

You can view/download the draft with latest comments and provide your feedback, once you have registered with Standards Australia, here: comment.standards.org.au

KEY POINTS

The key changes in the new version relating to glass and glazing is:

2.3.3 Glass barriers – Expansion of clause to provide further clarity around compliance and testing.

Appendix G – Introduction of a new test sequence suitable for Glass Pool Barriers

AGWA seek the opinions and views of the committee to inform its response to the standard revisions (both parts) to be forwarded to Standards Australia within the public comment period.

RESPONSES

We ask for views on this proposal as it relates to your state.

Feedback regarding the above is requested to be forwarded to;

James Whitehouse and Adam Davies
